The IHG Academy Programme (the "Programme") encourages IHG hotels to collaborate with local education or community organisations to provide relevant hospitality knowledge and training to the community. The purpose of the collaboration is to support the local community and its members to achieve their professional goals in the hospitality field.

IHG and Hotel entered into a Participation Agreement (the "Participation Agreement") setting forth the terms under which the Hotel may establish and maintain a local IHG Academy ("IHG Academy"). Hotel and Organisation acknowledge that all rights and licenses to operate the IHG Academy and participate in the Programme shall terminate immediately upon termination of the Participation Agreement. Hotel and Organisation operate the IHG Academy at their own risk.

Organisation hereby acknowledges and agrees that IHG owes no duties or obligations and has no liability of whatsoever nature for any claims, costs, expenses, damages or losses suffered, incurred, charged or assessed by or against Organisation that arise from, or in connection to, Organisation's participation in the IHG Academy or the Programme. IHG shall have no liability to Organisation, any third party or participant, whether in contract, tort (including negligence), breach of statutory duty, or otherwise, or for any indirect or consequential loss arising under or in connection with the IHG Academy or the Programme. IHG reserves the right to amend, with a binding and immediate effect, the Programme and institute specific policies for its operation.

Neither Hotel nor Organisation shall hold itself out as a partner, employee, agent or affiliate of IHG as a result of their participation in the IHG Academy or the Programme. No act taken in furtherance of the IHG Academy or the Programme shall create a partnership, employment, agency or joint venture relationship with IHG or entitle or authorise either Party to pledge the credit or have the authority to obligate or enter into any commitments for or on behalf of IHG.

Neither the IHG Academy nor the Programme shall not be described as being associated with any other system of hotels.

IHG Reserves Its Right as a Third Party to Terminate

All agreements for participation in the Programme or IHG Academy are subject to immediate termination by IHG, if Organisation or Hotel acts or fails to act in any manner, that in the sole opinion of IHG, brings the name or reputation of IHG, or any hotel operating under a brand owned by IHG, into disrepute, prejudices their business interests or infringes on any intellectual property rights held by IHG.

IHG can, in its sole discretion, determine that Hotel should cease to participate in the IHG Academy Programme and terminate the Participation Agreement. **Faculty Development Programme on ERP by Procampuz ,
Financepeer**

The education industry is one that has tremendous socio-economic impact and ramifications. It is therefore essential to ensure that the cogs of the education system run smoothly and function well. Faculty development programs are designed to update the knowledge and skill of key players of the education system, namely the teachers, to enable them to create meaningful and relevant discourses for their wards.

With developments in technology taking over every field of activity in the world it is no surprise that the education industry also relies on the same for efficient functioning. ERP (Enterprise Resource Planning) is one such technological tool that helps in streamlining operations of the educational sector, integrating academics, administration, accounting, transportation and other departments of an educational institution and automating operations by letting the management take a bird's eye view of all activities and progress. It also helps to integrate the whole system within the institute and facilitates processing and storing of error free data, thereby leading to enhanced efficiency.

A faculty development programme was conducted by Ms Deepika Verma – Regional Sales Manager at Financepeer. The FDP aimed at explaining how a tedious task of maintaining integrated records can be streamlined by resorting to an all-automated process by employing software for the same.

In order to seamlessly integrate all key processes of the institute from academic to financial and from administrative to commuting, dedicated to manage activities of the campus, efficient student management and streamline student – teacher engagement, Banarsidas Chandiwala Institute of Hotel Management & Catering Technology will be signing a MoU with **Procampuz , crafted by Gatikk Technologies.**

This would not only assist in academic enhancement but will also enhance and provide a tool towards easing placements and help in networking with the leading organisations and brands. Procampuz has a pre-set data base of over 10,000 companies in addition to having features like mock aptitude tests and placement schedule records.

This ERP would also sync all Session plans, lesson plans, faculty reports, practical observation sheets maintained by the teachers and also the assignments, class works, notes, attendance and grades at one place enhancing academic experience of students and teachers at one place. In a post Covid scenario wherein students are relying completely on gadget based e-learning this software would provide instant notifications to all logged in devices for activities, announcements and attendance for both students and faculties. Thus, the MoU will help to provide for a more engaging and responsive academic scenario both for the students and the faculty of the Institute
